

# JOSEPH BORIS

Creative, industrious software developer with 10 years of experience in code. Obsessed with productivity, and very excited for my next excuse to develop more effective software solutions.

## PORTFOLIO

### HoloLounge

Landing page and CMS

#### Git / GitHub

Excellent

#### GitHub Actions

Proficient

#### Java

Proficient

#### C#

Proficient

#### C++

Proficient

#### Godot / GDScript

Excellent

#### Python

Proficient

## WORK EXPERIENCE

---

### Chief Technology Officer

**HoloLounge - Ougetsu Co., Ltd.** (2022 - Present)

As CTO of this virtual reality entertainment business, I develop, install, integrate, and test hardware and software required for business operations. This includes VR stations, POS systems, security systems, business website, internal software, and more. Some of my secondary responsibilities include aspects like graphic design, interior design, and marketing.

### Web Developer

**Game Heretics Studios** (2021 - 2022)

As a contractor for Canadian board game development studio Game Heretics, I designed and developed an online landing page and news outlet, complete with CMS for posting content and updating settings.

### Web Developer

**Hokkaido Ramen Kumagen - Ougetsu Co., Ltd.** (2020 - 2021)

As a contractor for this ramen shop franchise, I developed a work shift scheduling solution (branded "Pogoshift"). I was also responsible for deployment, integration, and testing.

### Computer Science Tutor

*Various Platforms* 2013 - 2017 | **Wyzant.com** (2017 - Present)

I teach code from scratch, create exercises for practice, and help supplement university work, on one of the world's top tutoring websites. Since 2013, I've helped hundreds of university students and professionals achieve success.

## ACHIEVEMENTS

---

### ✔ Asset to Ougetsu (2020 - Present)

My unique software, hardware, and business solutions are projected to **reduce operating expenses by up to 50%** at HoloLounge Asakusa, giving the business a strong competitive edge. My scheduling software automated tasks that were previously done on paper at Kumagen, **saving an estimated 10 hours of labor per month.**

### ✔ Acclaim on Wyzant.com (2017 - Present)

- **5 star average (700+ ratings)**
- **Often dubbed "best" tutor on Wyzant**
- **Job placement for students**
- **Placed near top of search results**

“ I have used Wyzant many times over the past two years. Every tutor has been good but Joseph is by far the best. He is very patient and really helps you understand difficult concepts in a simple and easy way. I definitely highly recommend him.

-Brenda

## EDUCATION

---

### Software Engineering Technology

Associates Degree, 2013

Cincinnati State Technical and Community College

Cincinnati, OH 45223
