Generic blog boilerplate

github.com/jdboris/amp-stack-blog-boilerplate

## EXPERIENCE

### Computer Programming Tutor
2013 - Present | Wyzant.com (2017 - Present)

As a tutor, I teach code from scratch, create exercises for practice, and help supplement university work, on one of the world's top tutoring websites. Since 2013, I've helped hundreds of university students and professionals reach success.

## ACHIEVEMENTS

**Since joining Wyzant in August 2017, I've earned...**

- an average rating of 5 stars, with hundreds of ratings
- the title of "best" tutor on Wyzant in many reviews
- a spot near the top of the search results

" 'I have used Wyzant many times over the past two years. Every tutor has been good but Joseph is by far the best. He is very patient and really helps you understand difficult concepts in a simple and easy way. I definitely highly recommend him.'

*-Brenda*
